A selection of positive comments:

Would like to continue using it.

Excellent very efficient for all.

It was a good meeting, informative and quick.

Lovely to have the video option so we could have a virtual face to face meeting, all worked really well, thank you!

It was a quick and easy way to manage three parents evenings.

It was very convenient to be able to do it from home and not have to worry about childcare etc
There was sufficient time to discuss how each child is doing and overall we thought it worked well.

Simple & effective!

I thought it was a very good system given the current circumstances, it was good to be able to see the teacher using the video option.

Kept the appointments on time, clear indication of how much time we had and worked really well.

Very efficient and focussed use of the time available.

It was useful being able to raise any questions/concerns ahead of the meeting.

A summary of issues raised:

Problems connecting.

Would prefer face to face.

Time too short.

Difficult when two parents from different locations are trying to connect.

Future Action:

In light of 88% of responses saying it was more convenient than meeting at school we will be using this system again. However, we also do appreciate that some people have technical difficulties which we need to solve.
