

## June Update 2021

Lots of exciting things happening in the next few weeks, please check the school diary on the website for details (you can access it from the front page of the website by clicking on the week ahead or using the calendar tab – each event if you click, opens up for more information).

### **Sports Days for each class**

[Updated information](#) in the light of current Covid restrictions attached, dates in the diary.

### **Splitting year groups**

We have written a [FAQ sheet](#) to explain how and why classes are split, we hope you find it useful.

### **Time Keeping**

Please can I politely remind everyone to come to school on a morning before the side gate closes at 8.55am. Arriving late not only means that your child misses out on the morning activities but they also disrupt the class and often find it hard to socially settle down. If you need help with morning routines, if for example your child is reluctant to come in, there are lots of ways class teachers can help, just add a note to the planner.

### **Illness**

Thank you for using the 24hour answer machine or school email box to keep us informed before the start of the school day. With regards to any Covid symptoms, please follow national guidance and book a [PCR test](#) locally.

### **Induction meeting on Monday for new Reception pupils**

Thank you for booking to come, we are looking forward to meeting you. A special thank you to our year six tour guides who have kindly signed up to offer to help. Please send the children with a snack and pick them up at 6pm.

### **KS2 Water Sports Trip**

There are some paper copies of the EV5 permission form at the front of the school, should you need one.
