Mental Health

What is the definition of mental health?

"Mental health refers to cognitive, behavioural, and emotional well-being. It is all about how people think, feel, and behave. People sometimes use the term "mental health" to mean the absence of a mental disorder. Mental health can affect daily living, relationships, and physical health."

Need some support and advice?

There are a wealth of excellent Mental Health resources available. If you follow the CLP (Community Learning Partnership) PFSA (Parent, Family Support Assistant) [twitter account](#) you will see that she often posts useful advice and links which are regularly updated.

We have a Mental Health lead (Mr Briggs) as well as a range of methods of accessing support in our graduated response approach.

Check our 'Mental Health' website page.
